STATE BOARD OF ACCOUNTANCY

MISSION STATEMENT

The mission of the Nevada State Board of Accountancy is to protect the welfare of the citizens of the State of Nevada by assuring the competency of persons licensed as Certified Public Accountants (CPAs) and compliance with professional standards by registered CPA firms.

VISION

The Nevada State Board of Accountancy is committed to the protection of the public by enhancing the integrity of the profession through fair, impartial, effective, and efficient governance. The Board, through its purpose, assures the competency of CPAs through examination, certification, licensure, registration, continuing professional education, quality review and investigation/enforcement of standards and disciplinary action against licensees if necessary.

EXTERNAL FACTORS AND CHALLENGES

National and international concerns about accounting and auditing practices are paramount to the profession. The Nevada State Board of Accountancy needs to position itself to act effectively to protect the public. The Board actively participates with germane national and state professional organizations, seeking leadership positions, if appropriate, to stay abreast of relevant issues. Economic events, rapid changes in technology and past financial crises have increased the awareness and need surrounding the reliability of financial information.

The Board must continually update its information technology plans and strategies that anticipate potentially disastrous situations and how to handle them, while maintaining confidentiality and continuity in office functions. Technological advances will require knowledgeable staff and available funds to maintain a level of excellence in the future.

The Board must also be actively engaged in reviewing and analyzing its administrative regulations codified in the Nevada Administrative Code in compliance with the required State oversight directives and continue to monitor the overall regulation and legislative activity at the state and national level involving professional licensing boards.
